PROFILE

Full-stack developer with strong frontend roots and solid mobile experience. I work daily with React, React Native and Next.js, and I am comfortable across the backend with Node.js, Express and Prisma. I have shipped apps that reached **over 1 million users on Telegram** and **more than 100,000 users on mobile**, and I wrote my own open-source framework, **biagiojs**, published on npm. I care about code that loads fast and solves real problems.

SKILLS

Frontend: React, Next.js, Vue.js, Angular, Gatsby, TypeScript, JavaScript, HTML, CSS, Redux

Mobile: React Native, Expo, ViroReact (AR), push notifications with Firebase

Backend: Node.js, Express, Prisma, PHP, REST APIs, WebRTC / TURN, Spring Boot

E-commerce & CMS: Medusa.js, PrestaShop, Shopify, various CMS

Web3: Wagmi, NFT integration and on-chain reads

Tools: Python, SQL / PostgreSQL, Docker, Git, Vite, biagiojs (my own framework)

EXPERIENCE

Full-Stack Developer · Yomi

04/2024 – present

Full-time since 2025. Web and mobile projects for clients, mostly in Web3.

- Frontend with React, Next.js and Vue; backend Node.js and API integration.
- **Decklit:** a platform for secure presentations (slides shared as protected images, live Q&A and analytics), Next.js and TypeScript.
- **YouMovie:** subscription platform for indie filmmakers using NFTs (React/Gatsby, Web3/Wagmi, Node).
- **Insane:** influencer management showcase, bilingual IT/EN interface.

Software Developer · DLGTEK

03/2020 – 07/2025

End-to-end solutions at a small tech company, from design to full-stack implementation.

- **SosPediatria:** React Native app with over 100,000 users. Video consultations with a proprietary TURN server, Firebase notifications (iOS/Android), in-app payments.
- **DeebCreazioni AR:** augmented-reality jewelry try-on (ViroReact), AR modules rewritten for iOS and Android.
- **Marzitelli:** tablet kitchen management system (React Native) with Node/Express backend and thermal printing.
- Others: DigitalMemorial (React, PayPal), EcoEdil (React/Redux), Abse-el (PrestaShop/PHP e-commerce).

Software Developer · Datasound

03/2020 – 08/2020

- Low-cost support system for the rehabilitation of war veterans: Unity, Angular, Spring Boot.

FEATURED & OPEN SOURCE

- **biagiojs:** open-source SSG framework I built, published on npm. Static-first, island hydration driven by business weights.
- **Yescoin:** Telegram MiniApp in React, over 1 million users.
- **DeebCreazioni.it:** e-commerce built from scratch, Next.js and Medusa.js, performance-focused.
- **danilosprovieri.com:** personal portfolio, rebuilt with biagiojs.

EDUCATION

BSc in Computer Science · University of Molise (UNIMOL)

2017 – 2020

LANGUAGES

Italian (native) · English (B2)
